

12th Asia Pacific Symposium on Cochlear Implants and Related Sciences

Exhibitor Prospectus & Sponsorship Opportunities

English Version December, 2018

Greetings

Prof. Tatsuya Yamasoba, MD, PhD
President, APSCI2019

I am very honored and pleased to welcome you to the 12th Asia Pacific Symposium on Cochlear Implants and Related Sciences (APSCI2019) in Tokyo on November 27-30, 2019. This symposium was first held in Kyoto in 1997 by Prof. Iwao Honjo and the third APSCI was held in Osaka in 2001 by Prof. Takeshi Kubo. Since then, APSCI has become the leading conference in this field; now attracting delegates not only from the Asia Pacific regions, but from all over the world.

The APSCI will gather prominent global experts in this field including basic scientists, clinical specialists, and researchers. Productive clinical debates will be held on various topics related to hearing, speech, and balance disorders. We are also planning to have various sessions for otorhinolaryngology fields such as sessions for ST, Japanese sessions, and sessions with simultaneous interpretation services to encourage more participation.

The venue of the APSCI2019 is at Keio Plaza Hotel in Shinjuku, the center of Tokyo, and within walking distance, there are many hotels with reasonable prices. From the venue, you can easily access many sightseeing places; such as Asakusa, Akihabara, and Shibuya; by train, subway, bus, or taxi: You can also visit Kamakura within 1.5 hours and Kyoto within 2.5 hours.

We are in preparation of the upcoming APSCI 2019 with organizing committee members and we are expecting approximately 800 participants for the conference.

We proudly would like to mention that the Oto-Rhino-Laryngological Society of Japan has second largest members following the US. The practice of otolaryngology is rapidly growing in Asia Pacific region, and with it, the ENT equipment and drug markets as well. APSCI2019 will bring together key doctors and health care professionals in otolaryngologic fields from Asia Pacific fields, and it would be a great opportunity to expand your future business.

We would be delighted to show the Japanese hospitality of 'Omotenashi' to you and to your distinguished friends.

APSCI SUMMARY

APSCI is one of the qualified conference for otolaryngologic fields from Asia Pacific area. APSCI is not an organization by members; however, approximately 2,000 people have participated in the conference including about 100 experts from the US and Europe every time. Participants are internationally well-known otolaryngologists, logopedics and phoniatrics specialists and basic scientists. APSCI's goal is to encourage scientific knowledge and clinical trials for otolaryngologic fields.

For smooth conference preparation, APSCI board of director's responsibility is as follows

Determination for next host country (candidate)

Election of directors and board members

Discussion about activity in Asia Pacific area
